SCIENTIFIC GROUP CONCENTRATES ON ARMENIAN POWER DEVELOPMENT

The ArmNITOE (Armenian Scientific, Engineering and Technician Society of Power Workers) is a group of more than 400 power workers, outstanding workers, engineers, and technicians of industrial enterprises and different organizations of the Armerian SSR.

The society has organized 22 of its cells in the largest plants, scientific research institutes, higher education institutions, and other establishments. The ArmNITOE is made up of three sections an electrical engineering section (chairman - I. P. Chumburidze, instructor), a hydroelectric power section (chairman - A. N. Oganes an, engineer), and a heat and power section (chairman - A. F. Akhnazaryan, engineer). In addition, a committee for technical propaganda (chairman - G. D. Ter-Akopov, Candidate in Technical Sciences and instructor) is connected with the society.

Through its local cells the soliety carries out various activities, particularly in the dissemination of scientific knowledge and of outstanding experience in the exploitation of electric power instillations, electric power plants, and networks and also in strengthening collaboration between scientific workers and producers and in introducing new methods into the power engineering and electrification of the Armenian SSR.

Cells of the ArmNITOE are giving lectures and reports on the achievements of the electric power and allied pranches of science and technology as well as on other up-to-date questions.

Thirty-five engineers of the society have taken under their wing 45 workers of industrial enterprises and are increasing their theoretical knowledge for purposes of specialization.
